

Fangyi Chen

Research Scientist @ Intelligent Creation, ByteDance

Tel: (412)-417-5016

Email: fangyichen5@gmail.com

Research Interests

- Artificial intelligence, Deep learning
- Multimodal large language model, Open-world scene understanding

Education

- | | |
|---|-----------------|
| · Ph.D. in Electrical and Computer Engineering | 2020-2025 |
| Carnegie Mellon University | Pittsburgh, USA |
| · M.S. in Electrical Engineering | 2017-2018 |
| University of Pittsburgh | Pittsburgh, USA |
| · B.E. in Electrical Engineering and Its Automation | 2013-2017 |
| North China Electric Power University | Beijing, China |

Professional Experience

Research Scientist in Generative AI @ ByteDance, Bellevue

07/2025 - present

- Referring Layer Decomposition: Spearheaded the research of Referring Layer Decomposition, enabling MLLMs to perform open-world image manipulation.
- AI Agents Post-training: Drove the post-training for AI agents within TikTok Effect House.
- TikTok Live Effects: Primary contributor to the TikTok real-time portrait matting algorithm.

Research Assistant & Associate III @ CyLab, CMU

02/2019-05/2025

- U.S. Department of Defence, Project Maven: Object detection training strategy with insufficient and imperfect data.
- AI for Retail: Real-time system and robot for store management and automatic checkout. The system is deployed in 350 Walmart stores.

Research Intern @ ByteDance, Bellevue

05/2024-08/2024

- Multimodal LLM: Conducted research on multi-modal large language models, aiming to design and train AI systems for in-depth image editing, decomposition, and synthesis.

Journal Reviewer:

- IEEE Transactions on Image Processing (since 2022)
- ELSEVIER Pattern Recognition (since 2020)
- IEEE Transactions on Geoscience and Remote Sensing (since 2020)
- ELSEVIER NeuralComputing (since 2022)
- Springer Visual Computer (since 2022)
- Connected Science (since 2022)
- Multimedia Systems (since 2020)
- Springer International Journal of Computer Vision (since 2025)

Conference Reviewer:

- The IEEE/CVF Conference on Computer Vision and Pattern Recognition 2023, 2024, 2025
- The Annual Conference on Neural Information Processing Systems 2024, 2025
- International Conference on Computer Vision 2023, 2025
- European Conference on Computer Vision 2024
- The International Conference on Learning Representations 2023, 2024, 2025
- International Conference on Machine Learning 2023, 2024, 2025

Awards

- | | |
|---|------|
| · Carnegie Institute of Technology Dean's Fellowship, Carnegie Mellon University | 2020 |
| · Best Hardware Hack, PITT-CTSI GitHub Major League Hacking | 2018 |
| · National 3rd Prize, Chinese National College Students Competition on Energy Economics | 2015 |
| · University Merit Student, NCEPU | 2014 |
